Project Management Experience

Technical Project Manager, R&D   **April 2016 - April 2017**
Netsmart (previously HealthMEDX)   Lafayette, CO (Remote)
- Managed the integration between HealthMEDX's clinical software and a client's 3rd party pharmacy solution
- Developed best practices for software implementations to internal services team
- Led weekly code reviews to delegate team commitments and troubleshoot issues
- Organized cross-department escalation meetings and quickly decreased patient safety risks

Associate Project Manager & Application Trainer, Professional Services   **January 2014 - April 2016**
HealthMEDX   Louisville, CO
- Maintained timelines, software upgrade schedules, and resource bookings on projects 6 - 8 weeks in scope
- Implemented the first collective database of past and existing software implementations on 188 clients
- Led on-site application trainings to nurses, physicians, and other clinical roles on electronic health records
- Effectively communicated technical and user workflow issues to Support Team and Product Owners

Education

Galvanize, Inc.   **2017 - 2018**
Full-Stack Web Development Program   Boulder, CO

Indiana University, Kelley School of Business   **2009 - 2013**
